WHO WE WORK WITH

BMG works directly with networks, government agencies and international broadcasters who hire us for our expertise in live news production. We have a successful track record of producing complex projects and pulling together resources with very limited lead time. We can manage your daily or weekly news series or produce your one-off live news production or town hall broadcast.

SERVING A GLOBAL MARKET

BMG has operations in New York, DC and Los Angeles, but we routinely produce live news projects all over the country and abroad. We go wherever news is breaking. We can leverage our domestic and international network of resources that we've developed over the last 10 years to produce projects at a moment's notice.

CLIENT TESTIMONIAL

"BMG helped to pull off a minor miracle. We had to launch a global affairs show live from the Newseum within 5 days with very few resources. BMG is first rate and I would go to them with any type of production work or challenge. The word "No" does not exist in their vocabulary."
